

## Humpty's Revenge

### Humpty's Revenge

Once a year about the middle of August, Humpty Dumpty gets very irritable. Its cold and people seem to want to dunk him in hot water to eat on the cold mornings.

He has had enough and wants to take revenge for this harassment.

Students at Glenala SHS can put an end to this rampage by entering our annual egg drop competition. Take revenge on Humpty before he takes revenge on you.

Students are provided with a kit of craft items to build a container that will protect a large egg from smashing on the ground below the A Block verandah. Generous prizes are provided for place getters.

This event encourages the engineering, scientific and logic skills of participants outside the classroom in a real world context.

Can you stop Humpty?
